The Board may grant a variance only if it makes findings that the following conditions, insofar as applicable, have been satisfied:

1. Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district.
2. Literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.
3. The special conditions and circumstances do not result from the actions of the applicant or any other person who may have or had interest in the property.
4. Granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, structures, or buildings in the same district or similarly situated.
5. The variance, if granted, will not alter the essential character of the locality.
6. Strict adherence to the regulation for the property would result in a demonstrable hardship upon the owner, as distinguished from mere inconvenience.
