14.0 Historic and Cultural Resources

The historic and cultural resources in the City of Monroe give the community its unique identity. As such, it is imperative that these resources be recognized as the City charts its future. State-wide, historic and cultural resources are being acknowledged, not only as an important heritage asset, but also as an economic asset as the State develops a cultural economy. As stated in the Strategic Plan for Louisiana’s Cultural Economy, “Louisiana’s cultural economy is a sustainable, natural resource that cannot be outsourced.”

The Strategic Plan defines Louisiana’s cultural economy as: the people, enterprises and communities that transform cultural skills, knowledge and ideas into economically productive goods, services and places. It includes culinary arts, design, entertainment, literary arts and humanities, preservation, and visual arts and crafts. With its distinguished heritage and wealth of cultural assets, the City of Monroe has the framework for an advanced cultural economy within the State.

This chapter provides a brief introduction to the historic and cultural resources that exist in the City of Monroe. The historic background describes the general evolution of the City, detailing a few of the major events that brought the City to where it is today. The chapter also describes historic resources that showcase the City’s heritage and discusses the cultural resources in the City. Together, these sections of the Historic and Cultural Resources Chapter help identify what makes this place unique.

14.1 Historical Resources

The National Register of Historic Places provides three distinct benefits to a listed property: the honor of being nationally recognized; financial incentives and protection as federal or federally-assisted projects are planned. The City of Monroe has 21 properties listed on the National Register of Historic Places. The majority of which are noted for their architectural qualities. Those that are listed as significant for other historic cultural aspects include: the Bright-Lamkin-Easterling House for its state significance in art, the Grayson House for its local significance in educational, Governor Luther Hall House for its significance in local political history, Isaiah Garrett Law Office for its significance in local political history, Logtown Plantation for its significance in local settlement history, Milner Motors for its significance in local transportation and Robinson Business College for its local significance in education and ethnic heritage. Also of note is the G. B. Cooley House, the work of internationally known Prairie School architect Walter Burley Griffin. The architecturally significant Cooley house has attracted international visitors to Monroe.

Also listed on the National Register are two Historic Districts: the Downtown Monroe Historic District and the Monroe Residential District. The Downtown Monroe Historic District is architecturally significant as the finest historic central business district in Northeast Louisiana. This district consists of 57 buildings including three pre-Civil War buildings: the Clerk of Court’s Office (c. 1816), the Isaiah Garrett Law Office (1840) and the Fred Levi Building (1854).

The Monroe Residential District is architecturally significant within Northeast Louisiana because of the quality of the area’s landmarks. The District’s historic buildings create a large twentieth century urban neighborhood that is locally known as the Garden District. The Monroe Residential District is comprised of 619 buildings on 315 acres. Of these buildings, those that contribute to the historic character include one and two story residences, 17 two-story apartment buildings, two schools, two churches and a large park.

There are also three locally designated historic districts:

- **Henry Bry Historic District** – This district is on the Ouachita River generally south of I-20 to Plum Street and west of Jackson Street
- **Louis Alexander de Breard** – This district lies on the Ouachita encompassing most of Forsythe Park and the Garden District residential area to the east, it is also the national district
- **Don Juan Filhiol** – The local historic district includes the portion that is nationally designated, it follows the DeSiard Street corridor to 23rd Street and 24th Street, with Arkansas Street at its north and I-20 to the south

The figure below depicts these districts.
The City’s historic preservation ordinance outlines guidelines for exterior changes, issuance of certificates of appropriateness, and the criteria the preservation commission should use in making recommendations. The ordinance also spells out processes for variances and appeals of the commission’s decisions.

14.2 Cultural Resources

The following arts and cultural landmarks can be enjoyed by visitors to Monroe and residents alike.

Aviation and Military Museum of North Louisiana
Located at the corner of Kansas Lane and Central Avenue, the Aviation and Military Museum of North Louisiana is in one of the historic buildings from the WWII Selman Field Army-Air Force Navigation School.

The Museum’s mission is to “preserve and promote aviation and military history and the legacy of the men and women who contributed to it.” The museum had a grand reopening in November 2007. Additional information can be found at www.ammla.net.

Biedenharn Museum & Gardens
The Biedenharn Museum & Gardens is located at 2006 Riverside Drive and features the Elsong Gardens, the Biedenharn Home and the Bible Museum.
