SUBJECT: Environmental Impact Statement (EIS) Re-Approval

Dear Mr. Bolinger:

The above captioned project was included in the EIS approved by your office on January 25, 2016 under project number H007289 (Kansas Lane Extension). Since 2016 the city of Monroe has completed property acquisition necessary for the project and would like to use the limited funding available to begin clearing and grubbing the path of the new roadway under project number H013937 (Kansas Lane Extension Clearing and Grubbing). Since the last approval there have been no changes to the purpose and need or alignment of the roadway. It has been more than three years since the approval was received from your office. Based on the information that nothing about the project has changed, we feel that the project still meets the requirements needed for its approval, and request your concurrence. If you have any questions or comments, please contact Dylan Ohlsen at (225) 242-4513.

Sincerely,  
*Noel Ardoin*
