Section 1 Designated Holidays and Definitions:

New Year's Day	Labor Day
Martin Luther King Day	Thanksgiving Day
Good Friday	Christmas Day
Memorial Day	Employee's Birthday
Juneteenth	Veteran's Day
Independence Day	

(Should a conflict exist with a public holiday and the employee's birthday, a substitute will be decided by the employee and his/her supervisor.)

Public Holiday: A "public holiday" is the date upon which the above-designated holidays usually and customarily fall. For example, Christmas is usually and customarily observed on December 25, and Labor Day is the first Monday in September.

Observed Holiday: An "observed holiday" is the date on which the City of Monroe celebrates or recognizes a public holiday that falls on a weekend. For example, if July 4th (Independence Day) falls on a Saturday, it is "observed" on the Friday before or Monday after as a holiday.

Local Declared Holiday: A "local declared holiday" is any date (in addition to the above-designated holidays) the Mayor, in his sole discretion, officially declares as a holiday for the City of Monroe. For example, the Mayor may declare the day after Thanksgiving as a holiday for City employees, and that date is to be considered a "local declared holiday."

Inclement Weather Day: From time to time the Mayor may declare an "inclement weather" day or partial day when severe or harsh weather conditions make it unsafe or impractical to travel, commute, work, or remain at work.

Floating Holiday: A "floating holiday" is non-compensable time given off from work as substitution for a public, observed, local declared holiday, or inclement weather day.

Section 2. Eligibility Requirements for Holidays

For each public, observed or local declared holiday, which falls between a Monday and Friday and occurs on a day in which the employee is normally scheduled to work, each employee shall receive as a holiday allowance eight (8) hours pay at his regular rate of pay provided he has worked his last regularly

scheduled work day before and his first regularly scheduled work day after the holiday. Employees scheduled to work on a holiday who fail to do so, unless a leave of absence was pre-approved, shall not be entitled to holiday pay.

If a public, observed, or local declared holiday falls on an employee's regularly scheduled day off, the employee is not entitled to holiday pay but shall receive a floating holiday (equivalent to employee's normal work hours) to be used within six (6) months of the holiday.

Section 3. In addition to Section 2, the following will apply:

Employees required to work on a public holiday shall receive payment at the rate of time and one-half (1 ½) for all hours worked.

Employees required to work on an observed holiday shall receive payment at the rate of time and one-half (1 ½) for all hours worked.

Employees required to work on a local declared holiday, i.e. Friday after Thanksgiving, shall be paid at his/her regular rate of pay for hours worked and shall receive a floating holiday to be used within six (6) months of the local declared holiday. Floating holiday hours granted, up to eight (8) hours, ten (10) hours, or twelve (12) depending on length of normally scheduled shift, shall be equal to the number of hours worked.

Employees who work on a local declared holiday are not entitled to the holiday allowance described in Section 2.

For the purpose of administering the provisions of this Article, holiday pay and time shall apply to the shift beginning on the day which is celebrated as a holiday and shall continue to be applied throughout the shift even if the shift ends on the following day.

Section 4.

Straight Day Workers: Holidays falling on Saturday or Sunday will be observed either the Friday before or Monday after the holiday. No work will be performed on Labor Day except such as is necessary for the preservation of life or property.

above stated causes within any calendar year; however, no employee shall receive pay for more than two (2) holidays in any calendar year under provisions of this **Section**, employee shall receive regular pay if the holiday falls on the employee’s regular scheduled day off. Death in the immediate family means:

Death in the immediate family is further qualified as being the death of one of the above-named family members in the first and present status. For example, “brother-in-law” does not mean a brother-in-law from a divorced spouse and “aunt/uncle” means the sister/brother of the employee’s mother/father.

Section 6. On inclement weather days, employees who are scheduled to work will be compensated for their regular shift, regardless of whether they are required to report to work. Employees who are required to work their scheduled shift on an inclement weather day shall, in addition to their regular compensation, receive a floating holiday equivalent to the number of hours worked on the inclement weather day. Employees who were not scheduled to work on inclement weather days and employees who are on scheduled or approved leave (e.g., sick, vacation, compensatory, FMLA, or otherwise) will not be eligible to receive a floating holiday.
